

Privacy Policy

AI-Powered Measurement Platform

Version 1.0 Effective Date [TO BE CONFIRMED]

Our commitment

Zimutail is an AI-powered clothing measurement platform that helps people understand their fit and receive more relevant size recommendations across participating sellers.

We collect information to create and secure accounts, produce measurement insights, improve recommendation accuracy, support seller integrations, and provide a dependable service.

This Privacy Policy explains what we collect, why we collect it, how we use it, when we share it, how long we retain it, and the choices available to you.

IN THIS POLICY

Information collected • Uses • AI and cross-seller disclosures • Cookies • Sharing • Security • Retention • Your rights • Compliance • Contact

Information Collected

Part 1: information you provide to us

Account Information

When you create or use a Zimutail account, we may collect:

- Name, email address, and phone number
- Login credentials and account recovery details
- Social login identifiers when you choose to sign in through a third-party provider
- Account settings, authentication records, and communication preferences

Profile Information

To personalize the service, you may provide:

- Gender, date of birth, and relationship labels
- Clothing preferences, fit preferences, and style information
- Language, location, and other optional profile details

Measurement Information

You may enter or confirm measurements and sizing information, including height, weight, chest, waist, hips, inseam, foot length, garment measurements, and size selections. You decide which optional information to provide and may update it through your account.

Information Collected

Part 2: scan, device, and usage information

AI SCAN DATA

Image uploads are voluntary. Images are processed solely to extract measurement information and are deleted after processing. Measurements are retained only after you review and confirm them.

Device Information

When you access Zimutail, we may automatically receive browser type, device type, operating system, IP address, approximate location derived from IP address, language settings, and technical identifiers needed to operate and secure the service.

Usage Information

We may collect information about how you interact with the platform, including:

- Pages, features, and recommendations viewed
- Measurement confirmations, edits, and recommendation activity
- Seller interactions, referrals, and product engagement
- Consent choices, revocations, and preference changes

We use this information in aggregate or linked to your account as described in this Policy.

How Information Is Used

We use information for clear, limited, and legitimate purposes.

Accounts

Create accounts, authenticate users, recover access, and maintain account settings.

Recommendations

Generate size recommendations, improve fitting accuracy, and reduce avoidable returns.

Integrations

Support participating seller integrations when you provide the required consent.

Support

Respond to questions, troubleshoot issues, and provide customer support.

Safety

Prevent fraud, detect abuse, protect the platform, and maintain service security.

Compliance

Meet legal obligations, enforce our policies, and respond to lawful requests.

We also use information to monitor and improve platform performance, reliability, accessibility, and user experience.

AI, Measurements, and Cross-Seller Use

Important information about how our core technology works.

Measurement Data

Measurement data supports recommendations, fitting accuracy, return reduction, and approved enterprise workflows. Zimutail NEVER sells measurement data to third parties.

AI Processing Disclosure

- Our technology extracts measurement information from eligible images and account inputs.
- Recommendations may include confidence scores and are not guaranteed to be correct.
- You can manually review, edit, and confirm measurements before they are saved.
- AI outputs are not used to make legal, financial, employment, housing, healthcare, or similarly significant decisions.

Cross-Seller Recognition

Zimutail may recognize a customer across participating sellers to provide a consistent experience. Measurements are NEVER transferred to a seller without your explicit consent. Consent is requested through a clear in-product prompt or approved seller flow. You may revoke consent through account settings or by contacting us. Revocation stops future sharing and does not undo sharing that already occurred lawfully.

Profiles, Cookies, and Sharing

The controls and relationships that support the Zimutail service.

Multi-Member Profiles

You may manage measurements for family members such as a child, spouse, or parent. You are responsible for having authority or permission to provide and manage another person's information. Do not add another person's information if you are not authorized to do so.

Cookies and Tracking

- **Essential:** authentication, security, sessions, and core functions.
- **Functional:** preferences, language, and remembered choices.
- **Analytics:** traffic analysis, diagnostics, and performance monitoring.
- **Cross-domain recognition:** identification across participating sellers where enabled and consented.

You can manage non-essential cookies through available settings. Blocking some technologies may affect functionality.

Data Sharing

- **Sellers:** only when you provide explicit consent.
- **Service providers:** infrastructure providers such as AWS, email and SMS providers, analytics vendors, and support tools acting under contractual safeguards.
- **Legal authorities:** when required by law, valid legal process, or to protect rights and safety.

Security, Retention, and Your Rights

We apply technical and organizational safeguards while keeping data only as needed.

Data Security

Safeguards include TLS 1.3 encryption in transit, AES-256 encryption at rest, role-based access controls, least privilege principles, audit logging, intrusion detection, and incident response procedures. No method of transmission or storage is completely secure, so we continuously review and improve our controls.

Data Retention

- Measurements: up to 7 years
- Audit logs: 3 years
- Sessions: until expiry
- AI scan images: deleted after processing
- Consents: maintained as needed for compliance

Your Rights

- Access and review your data
- Correct inaccurate information
- Export or port your data
- Delete data, subject to legal exceptions
- Revoke consent
- Manage communication preferences

To exercise a right, use available account controls or contact us using the details on page 8. We may verify your identity before completing a request.

Compliance and Contact

This Policy is designed for legal review and ongoing transparency.

International Compliance

- **GDPR:** applicable rights and safeguards for individuals in the European Union.
- **DPDPA:** privacy and consent practices intended to support India's Digital Personal Data Protection framework.
- **CCPA readiness:** planned support for applicable United States privacy requirements as the service expands.

Related Policies

This Policy should be read with our separate Terms & Conditions, Cookie Policy, Consent & Data Sharing Policy, and Security & Compliance Page.

Policy Updates

We may update this Policy to reflect changes in the service, law, or our practices. We will post the revised version, update the effective date, and provide additional notice when required. Continued use after the effective date means the updated Policy applies to future activity.
